

About Us

MENA Speakers is a highly acclaimed agency offering customized solutions for various speaking engagements. Established in 2016, we have become the foremost speakers' agency in the Middle East, offering services that can compete with international agencies. Our exceptional track record is a testament to our unwavering commitment to delivering top notch speakers who constantly raise the bar.

Our expert orators can innovate, facilitate, moderate, and motivate audiences across different events, including keynote speeches, educational seminars, and one-on-one meetings. Under the leadership of Saana Azzam, an award-winning economist, MENA Speakers represents the best and brightest in the region, including VIPs such as Prince Salman from Saudi Arabia, Mohammed Qahtani, world champion in public speaking, and Muna AbuSulayman.

We have also brought in renowned international speakers such as Fed Reserve Chairman Ben Bernanke, Janet Yellen, and David Meltzer. Our exclusive speaker roster includes Mathew Knowles, the father and agent of Beyoncé, Joe Foster, the founder of Reebok, and Hala Gorani, a CNN anchor. We have an impressive client base, which includes Gulf Ministries, Kellogg's Company, Standard Chartered Bank, NEOM, Misk, Al Ula, and many more.

In short, MENA Speakers is a trusted and reliable agency that provides exceptional speakers

and services to meet the diverse needs of our clients.

QUALITY

With over 100 celebrities and professional speakers, we have MENA's largest pool of speakers.

EXCLUSIVITY

Many of our speakers are exclusive to our brand and can't be booked anywhere for the MENA region.

EMPOWERING

Our speakers are masters of their craft – making any event a resounding, memorable success.

TRUSTWORTHY

We believe in building long-lasting, mutually beneficial partnership across the MENA region.

Mohamed Abduljawad

- **Residence:** Dubai
- [LinkedIn](#) | [Video](#) | [Link](#)
- **Fees:** 4,500 USD + VAT

Mohamed Abduljawad is a robotics engineer and space science researcher based in Dubai, currently working at the Dubai Future Foundation. He holds a Master of Science degree in Space Science from United Arab Emirates University and a Bachelor's degree in Electrical and Electronics Engineering from Ajman University. Mohamed specializes in robotics, artificial intelligence, and space technologies, with extensive experience developing advanced robotic systems that combine software and electronics.

He has contributed to cutting-edge research projects, collaborating with international universities to bring scientific innovations to market. Mohamed is also a passionate STEM and technology speaker and trainer, sharing insights on AI, robotics, and space science, and inspiring young people and professionals to engage with these fields.

His technical expertise and ability to communicate complex scientific ideas clearly make him a strong speaker on education, especially topics related to STEM education, technological innovation, and the future of learning in science and engineering.

Tariq Qureishy

- **Residence:** Dubai
- [LinkedIn](#) | [Video](#)
- **Fee:** 6,500 USD + VAT

Tariq Qureishy is a renowned futurist, keynote speaker, and founder of Xponential Group, a platform dedicated to organizational transformation through exponential technologies like artificial intelligence (AI). With over 25 years of leadership experience at global organizations such as Dow Jones Markets, The Times & Sunday Times, and Bloomberg Media, Tariq brings a deep understanding of innovation and technology's role in shaping the future.

As a speaker, Tariq specializes in topics such as "AI for Good," technology versus humanity, moonshot thinking, and practical business applications of AI. He has delivered over 400 keynotes globally, inspiring audiences with actionable insights on how AI can drive business growth while addressing ethical and societal challenges. Tariq also hosts the podcast platform Voices of the Future, where he engages with leading global thinkers on AI and other disruptive technologies.

Tariq's mission is to bridge the gap between today and tomorrow by empowering leaders to embrace AI and other transformative tools to create sustainable futures. His dynamic presentations combine visionary thinking with practical strategies, making him a sought-after voice in the field of artificial intelligence.

Expertise in AI and Future Readiness: Tariq has delivered numerous keynotes on AI, including its transformative potential, ethical implications, and its role in shaping the future. He has spoken at high-profile events such as TEDx and other global conferences, where he delves into topics like AI's impact on humanity and exponential growth frameworks.

Global Experience: With over 400 keynotes delivered globally, Tariq has extensive experience engaging diverse audiences on topics related to technology, innovation, and transformation. His ability to connect the dots between technological advancements and human values makes him an impactful speaker.

Amine Belarbi

- **Residence:** Dubai
- [LinkedIn](#) | [Video](#)
- **Fees:** 6,000 USD + VAT

Amine Belarbi is a leading cybersecurity expert, entrepreneur, and visionary in technology innovation. As the CEO and co-founder of Cypherleak, he has developed a groundbreaking cybersecurity platform that helps organizations around the world protect themselves from cyber threats, with over 1,000 corporate clients trusting his solutions.

Amine is not only a technology leader but also a passionate educator and author of bestselling books on cybersecurity. His work combines cutting-edge advances in AI and machine learning with practical strategies for managing digital risks, a critical skill set in today's technology-driven world.

As a speaker, Amine inspires students to explore careers in technology and cybersecurity, encouraging them to develop essential skills like critical thinking, problem-solving, and digital literacy. He shares his entrepreneurial journey and insights on innovation, motivating young learners to become the future leaders and innovators in an increasingly digital landscape.

Dr. Petar Stojanov

- **Residence:** Dubai
- [LinkedIn](#) | [Video](#)
- **Fee:** 7,000 USD + VAT

Dr. Petar Stojanov is a quantum physicist turned disruptive innovation and future foresight expert, renowned for his visionary approach to shaping tomorrow's world. With a career spanning three continents and multiple industries, Dr. Stojanov applies rigorous scientific methodologies to solve complex innovation challenges and reimagine the architecture of the future.

As Managing Partner and Head of Communications and the Future at Created by Black, a global design and innovation advisory, Dr. Stojanov leads teams in developing regulatory and policy frameworks around disruptive technologies, accelerating national talent, and building innovation portfolios with tangible human and commercial impact. His work has influenced major projects such as EXPO 2020, Dubai 10X, and the Dubai Police's Transport and Rescue Unit, helping to design and execute forward-thinking visions for mobility and urban development.

A sought-after government-level advisor, Dr. Stojanov chairs forums and facilitates high-level discussions on future strategy, disruptive technologies, and innovation. He also lectures on innovation and entrepreneurship at New York University Abu Dhabi and London Business School Dubai, inspiring the next generation of visionary leaders.

Dr. Stojanov's approach is rooted in the belief that innovation is as much a science as it is a mindset. He champions the "Smart Failure" methodology—an elegant problem-solving approach grounded in modern economic theory, evolutionary biology, and the scientific method—to help organizations and governments embrace uncertainty and create radical solutions for the future.

With a passion for storytelling and knowledge-sharing, Dr. Stojanov hosts and produces the scientific documentary series 'Scienced,' exploring pioneering technology businesses in the UAE and their global impact through disruptive innovation. His thought leadership and visionary thinking make him an exceptional speaker for audiences seeking to unlock the potential of tomorrow's architecture—both physical and societal.

Althea Davis
